Sub DISCOMs – BRAP 2024 – Online system and dashboard for Temporary Electricity connection – Circular – Issued – Reg.

Ref: Lr.No.INC02-21021/62/2023-EODB/2267489 dated 18.11.2024 from Commissioner, Industries & Commerce Department

****

Vide reference cited above, the recommendations under Business Reform Action Plan Plus (BRAP+) 2024 were communicated to this Department for implementation and compliance.

BRAP 2024 recommends developing an online system for obtaining temporary electricity connection that allow online application submission, payment, and status tracking, eliminating the need for physical document submission. Additionally, it recommends publishing an online dashboard in public domain with following features:

i. Clearly display data on the number of applications received and granted, the time taken, and the fees incurred to grant approvals/certificates.
ii. Indicate that the dashboard is preferably updated in real time or regularly (daily, weekly, fortnightly, monthly), with the date and time of the latest update mentioned.

In the above context, it is informed that Andhra Pradesh Central Power Distribution Corporation Limited (APCPDCL) has developed an online system for obtaining Temporary Electricity Connection through the official website of the Department (https://apcpdcl.in/). The online portal features online application submission, payment, and status tracking without the need for applicant to physically visit the Department to avail the connection. Additionally, an online dashboard for the service has been developed on the website and available in public domain in line with the recommendation.

In view of the above, it is mandated that all applications for Temporary Electricity Connection shall be accepted and processed online without the need for applicant to physically visit the Department. Moreover, it is also mandated that the Department shall update the dashboard for the service regularly while publishing the date and time of the latest update on the dashboard.
